To Whom It May Concern,

I am pleased to recommend Olha Vasylevska for any frontend engineering position. Olha has been a vital member of our team at Recovo, demonstrating exceptional technical skills and a commitment to excellence.

Olha played a key role in developing and maintaining our web applications, using HTML, CSS, JavaScript, and frameworks like React.js and Next.js to deliver high-quality, user-friendly interfaces. Her work improved significantly our user experience and received widespread positive feedback.

In addition to her technical expertise, Olha excels in collaboration and communication, effectively working with designers, developers, and product managers. Although her focus was on frontend development, she proactively began learning PHP and Laravel to assist the team with backend development, showcasing her versatility and dedication.

I highly recommend Olha for any frontend engineering role. She will be a valuable addition to your team.

Sincerely,

Nicolás Tabares Wiede
